Developed in collaboration with renown fragrance manufacturer, these 4 vent-type car air fresheners capture the authentic scents of Japan. Simply attach to the air conditioner vents to transform the interior of your car into a space of wonderful smells and calming fragrance.

### ゆずの実 YUZU / JAPANESE CITRUS FRUIT

The Yuzu is one of the most popular citrus fruits in all of Japan. It's aromatic zest and tangy juice makes it a chosen ingredient in Japanese cuisine as well as selected sweets and cakes. The Yuzu's unique and refreshing scent is also used in perfumes and it's refreshing citrus fragrance has been captured in this air freshener.

### 夏の梅 NATSU NO UME / JAPANESE PLUM

The Ume, or Japanese plum, bears fruit in Japan's early summer months of June to July and is widely enjoyed as a pickled plum called "Umeboshi". The health benefits of Ume have been known to the Japanese since ancient times and it is said that the Ume can refresh the body while also providing antibacterial properties. The Ume's soft, aromatic fragrance has been captured and reproduced in this air freshener.

### さくらの花 SAKURA / CHERRY BLOSSOM

The Sakura, or Cherry Blossom, is the symbol of the Japanese Spring and is closely related to "Hanami", which is the traditional custom of enjoying the beauty of flowers. The fresh springtime fragrance of Japanese cherry blossoms have been captured and reproduced in this air freshener.

### 京都抹茶 MATCHA / GREEN TEA

Matcha is a finely stone ground powder of carefully cultivated green tea leaves. It is used in traditional Japanese tea ceremonies as well as in a variety of sweets, cakes and beverages. The preparation, serving and drinking of Matcha embodies the meditative and spiritual "way of the tea". The fresh green tea fragrance of Matcha has been captured and reproduced in this air freshener.
